(SSU China Note: Subsource is a member of the Antung Hsien Kuomintang Party Headquarters. Because the Chinese Communists control Antung (124-23, 40-09), the Kuomintang Party can only undertake underground activities there. Also, because of extremely bad conditions in Antung, many men have had to return to Mukden. The Kuomintang maintains an establishment in Mukden to entertain these Antung representatives. It was there that the following information was obtained.)

1. The Chinese Communists in Antung are continuing to secretly transport machines and supplies to the Russian Army in Korea. Because of the extreme secrecy with which the transactions are carried on, it is impossible for anyone to obtain any detailed information on these operations.

2. However, WU Hsiu-shu (吳修數), Chief-of-Staff to General LIN Piao (林彪), during a press conference, admitted that the Chinese Communists had bought food supplies for the Russian Army in Korea.
